

## Women Employment Generation during Covid Lockdown

During the first wave of Covid 19 outbreak, the world was in complete lockdown. Many people had lost their business, jobs were at stake. CERA supported women to come up for securing their families that affected due to lockdown. Employment Generation project-Mask Making was highly accepted by Women. There was total 50+ women involved in this project. They have made all together 92000 masks as per the requirements. These masks were distributed to society, hospitals, local authorities, employees.
